7th Annual Symposium on Canine Reproduction

A Canine Breeder Excellence Seminar

Saturday, October 27, 2018
8:30 a.m. – 4:30 p.m.

Symposium Description
The 7th Annual Symposium on Canine Reproduction is an opportunity for breeders and veterinarians to convene and converse about our shared passion for breeding dogs. The focus of this year’s symposium is The Male and covers a broad array of topics designed to address management practices and common challenges faced by both kennels and clinics involved in standing a stud-dog for semen collection and storage.

All are welcome to attend, including veterinarians, breeders, technicians and lay-people.

Speakers
Scott Bailey – Associate Professor, Theriogenology
Sara Lyle – Associate Professor, Theriogenology
Karen Von Dollen – AKC / AKC CHF / TF Theriogenology Resident
Katelyn Ellis – Theriogenology Resident
Theresa Beachler – Theriogenology Graduate Research Assistant
Katie Withowski – AKC / AKC CHF / TF Theriogenology Resident
Caitlyn Getty – Nutrition Resident

Registration
The registration fee is $50 for both veterinarians and non-veterinarians. This fee includes light refreshments in the morning, a catered lunch, and 7 hours of CVME for vets and vet techs as approved by the NCVMB and the AAVSB RACE.

NC State CVM students may register at a discounted rate of $10. The program is also available as a webinar for online viewing. Registration for the webinar is $50.
