

ONE SIZE DOES NOT FIT ALL

"Move over, you're in my space."

There are few things more adorable than a cute, cuddly puppy. But all puppies grow...and some grow a lot. They also have different exercise, grooming, nutrition, vet care needs. So before you bring one home, make sure you take the time to research the right breed for your lifestyle.

Think before you add a puppy to your family. It's important to use your head, not just your heart.

Remember, owning a dog is a lifetime commitment.
