

Health Statement for the American Chinese Crested Club:

The American Chinese Crested Club (ACCC) Board of Directors is committed to the future health and well-being of the Chinese Crested. As such, we strongly recommend the health screening tests for both sire and dam in breeding programs such as the Bred with H.E.A.R.T. and the Breeder of Merit include, at minimum, health tests specified in the current CHIC requirements which currently include:

Eye Examination by a Board-certified Ophthalmologist

Results registered with OFA OR

Results registered with CERF

Congenital Cardiac Database

OFA evaluations with exam by cardiologist

Patella Examination

OFA evaluations with exam by veterinarian.

Genetic testing with results by a laboratory accepted by OFA:

prcd-PRA

Primary lens luxation

prcd-PRA RCD3 subtype

The above health statement has been approved by the American Chinese Crested Club Board of Directors on 10/01/2018.
