

Saturday's Tracks

Track #5

Judge – Sally Elkins

CH CT Windward's Compass Rose RN AX OAX OF and Michael Roehrs came from Bowling Green OH to participate in this special event. Rosebud a Field Spaniel started calmly and worked her way down the first leg to a right turn. The team worked the turn before taking off down a slight incline. She crossed an asphalt road and stayed on the road cutting the next corner but was successful in that there was a left turn. Rosebud was able to find the track and follow it to the metal article. After the article the team indicated the next turn but wanted to go left and had to have help finding leg four. Rosebud tracked past a table of picnickers with a barking dog. Ignoring the distraction she quartered down the leg in true spaniel style. When she reached the asphalt parking lot she again cut corners so that they missed an article. On the last corner Rosebud needed help. This team never stopped moving and I am sure that this hard working little dog slept soundly once put to bed for the night. Jennifer Hall was the track layer.

Judge – Betty Winthers

CT Windward's Compass Rose, Field Spaniel, (Rosebud), Rosebud started out business like head down reaching for the track – she track wide on the turns found the metal article, after the article she took off the third turn, we called her back she found the third article – again she off the fourth turn – then back on track to the final article. Rosebud was a hard worker.
